

Individual Meeting "One to One" with *Aashti*

Are you one who is called to be TRUE to ONESELF?
To walk from PRESENCE on the path to FREEDOM ?
YES it's precious!
YES, it is possible.

Thank you for giving you this time... to walk this path... enticing and demanding.
For 30 years now, I have been transmitting, sharing and flowering through the accompaniment of people who are passionate about Truth.
Forces of Nature, and it's 5 elements which I am connecting since I am very young are my guides and inspire me.
The masters, shamans and therapists I had the honor to meet have cracked open my heart. They offered me keys, tools which I have experimented, some of them are horticulture, organic gardening, meditation, dance, theatre, rituals, nonviolent communication, conscious breathing, symbolic language, etc.

Over the years...I have developed my own approaches that combine the treasures of Meditation, Neo-Shamanism, Sacred Psychology (Trans-Personal Psychology), Tarot-Intuition, Experiential Astrology and Creativity.
These living approaches have been evolving and refined over the past 30 years at the pace of my own transformation.

The TAROT INTUITION allows you to hear, trust and connect to your Inner Guide and develop your Intuition.

EXPERIEN-CIEL Astrology invites you to experience your birth chart from within, The **ASTRO-DRAMA** is a beautiful way to channel the energy of each planets, allowing them to express, interact with each other, and reveal their medicine. Astrology become **ALIVE** and **VIBRANT** through the feeling and the experience in the body. It allows you to go beyond the conditioning and limited beliefs about yourself, about the others, about **LIFE** itself.

Like the **SUN**, it is an invitation to Embrace the infinity of possibilities that you are.

To Observe and participate in the dance of **LIFE** from the Centre.... from **SOURCE**.

The Family TRANCE-MISSION, is the approach I develop, using **ASTRO DRAMA** in a group. Allowing each planets to express itself through us, illuminates family secrets, liberates trans-generational dynamics and allow you to rediscover and honor it's precious heritage... this transgenerational heritage is not negative, even if sometimes, it feels like it. It is looking for somebody authentic and response-able "like **YOU**" who can be the guardian and share the medicine it offers.

Also, the **TRANCE** of the little story in which we feel entangled is seen from a larger and deeper perspective.

THE MISSION is to be **FREE** not from the family, the situation, but from the **ME STORY**.

It's time to **HEAL** and **SHINE**.

I am always amazed at how the intrinsic intelligence of the **LIFE** that we are manifests itself by the staging of the astral theme and the profound wisdom of the symbolic language of the Tarot,

This direct experience is precious. Because it is bypassing the mind.

The approach I propose leads you to recognize what is always present and conscious in you, through all the situations you go through, while allowing you to let go of the identification to the little story that we tell ourselves for too long and that we believe **TO BE**.

RESTING and anchoring more and more in the Presence - Consciousness - Witness Love changes everything. We find our right place in the **SELF** and therefore within the world (family, work, romantic relationship). The interior and the outside, the material and the spiritual, the masculine and the feminine, Heaven and Earth are no longer separated. It's all connected! Situations are seen as mirrors to see each other better, as invitations to recognize ourselves and above all to feel and know in our guts that we are loved as we are.

All that remains is to embrace our **UNIQUENESS** and rejoice in the many colors and forms that Love takes. What a **JOY!**

In addition to the individual **ONE to ONE**, I enjoy offering sessions for couples, in groups over 3 years, Satsangs, Rituals of Pas-Sages, Retreats in nature, Supervision for therapists or people who "accompany" and spiritual retreats in **INDIA**.
